cinas

Design is  
not just looks.

Design is how  
it works.

# Our story

Cinas was founded under the name Carl J. Nielsen in 1903.

Since the 1980s, the company has developed into the design, import and distribution company that we see today.

All of our products are made with carefully selected manufacturers in the Far East, where the cooperation has functioned for generations. High-quality requirements are incorporated into this network, ensuring that our products always live up to our quality and finishing standards.

We focus on furniture and accessories that emphasize their simplicity and functional expression, but still with a stylish edge with our design philosophy in mind.

“A design is incomplete until someone uses it.”

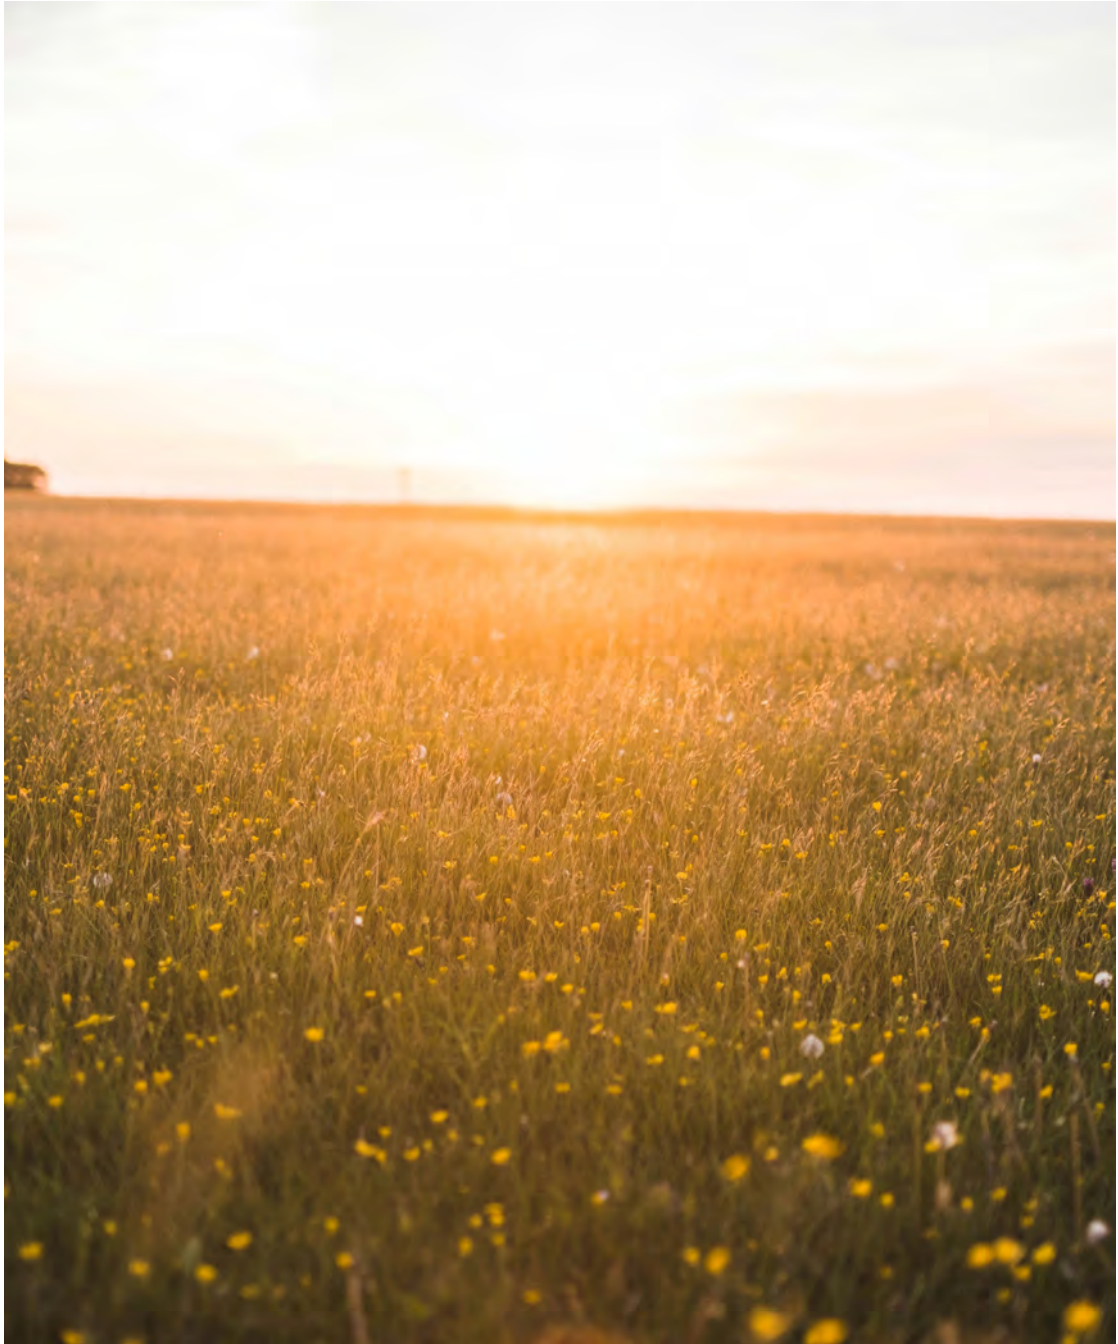

A large, leafy tree with numerous small, bright yellow flowers. The tree is the central focus of the image, filling most of the frame. The background is a plain, light-colored sky.

# Outdoor

We draw inspiration from Scandinavian and Nordic design traditions. Our outdoor collections combines timeless aesthetics with functionality, adding beauty and comfort to homes and gardens.

Manufactured using quality materials, our furniture is designed with longevity in mind. Designed for long life- and everyday use.

# Eya

The Eya lounge chair combines timeless design with practical functionality and is made from teak and Viro rope. The frame of the chair is crafted from solid teak wood, known for its durability and natural resistance to all weather conditions.

The Viro rope is made from weather-resistant material, ensuring the chair retains its shape and comfort even under changing weather conditions. Whether the sun is shining or the rain is falling, this lounge chair will be a stylish and reliable addition to any outdoor setting.

# Ellen

Ellen and her husband enjoyed dinners with family and friends in their garden with an old set of furniture with beauty, comfort and heart. Design, materials and comfort were gently reworked into our version of the classic set and brought to life again; named after the Lady of the house.

Ellen collection is a timeless collection that combines elegance and functionality. This furniture series is crafted in teak wood, embodying the iconic Scandinavian aesthetic with its minimalistic design.

# Our materials

Teakwood

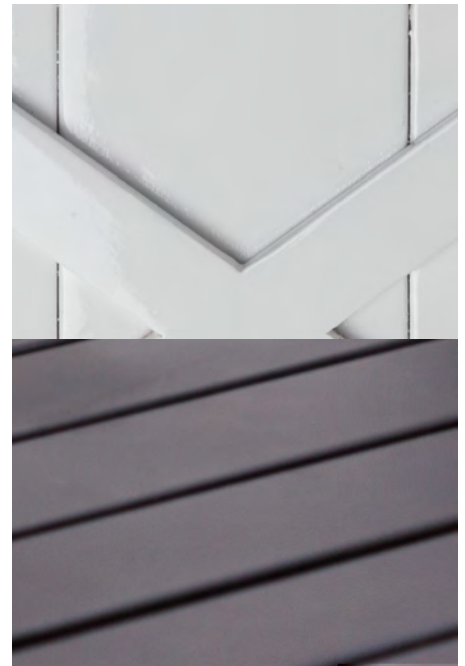

We use Java teakwood to manufacture our furniture. Among the other hardwoods commonly used for outdoor furniture, many are referred to as 'teak substitutes'. But there is no substitute for teak, and in outdoor conditions, no other hardwood in the world performs to the same high quality standards as teak. Simply put, teak is the best hardwood in the world for untreated wooden outdoor furniture.

Viro Rope

Viro rope is highly resistant to weather, UV rays, and extreme temperatures, making it ideal for outdoor use. It requires minimal maintenance and is easy to clean with mild soap and water. Viro retains its appearance over time without fading or cracking.

Mahogany with glossy white or matte black pu paint

With its balanced natural oil content, mahogany has proved itself over time as the best material for painted outdoor furniture. Prior to assembly, we apply several layers of paint to each component to ensure optimal protection and outdoor resistance. This strong smooth painted surface highlights the knowing modern lines of each piece of Cinasa furniture.

## Aluminium

Our powder-coated aluminum furniture is rustproof, easy to clean, and requires only minimum maintenance. All Cinas aluminum frames are offered in our classical 'glossy powder coating', matt anthracite, white or sandy grey powder coating'. Combine various types of tables, seating types and cushions to create a selection for your every mood and preference.

## T-grip

Innovative system that enables us to produce chairs without tools, screws, or glue. Our flexible U-shaped polypropylene lamellas feature our own unique T-shaped grip system for easy insertion in a rail inside an aluminum frame.

## Umbrella

Our garden umbrellas are water-repellent and treated for UV+50 resistance. Poles are available in teak color hardwood and aluminium, with several size options to suit a variety of applications. The hub and runner are made of strong polyresin, and fittings have a satin finish. The umbrella fabric is reinforced with double stitching, and leather patches enhance the strength of the corner pockets. Choose covers to suit your market: Standard Polyester (235gr/m<sup>2</sup>) or Olefin (210gr/m<sup>2</sup>). Umbrella bases in concrete (including wheels) are available with the patented tube.
